Domain:
Written presentation

Benchmark:
Present information on limited content, supported by visual aids

Description:
In this task, each pupil is asked to bring in one item that he or she would like to include in a time capsule. Pupils are then asked to write an accompanying note to whoever finds the capsule in the future. The note should explain why they chose that item, what it is used for and how it relates to life in the early 21st century.

Rationale for choice of topic:
This topic offers pupils the opportunity to express themselves individually in the wider context of a group project. Planning a time capsule encourages children to think about items that characterize contemporary life or reflect their own lives. The idea of leaving items for future generations helps children to develop historical awareness.

Suggestions for implementation (prior to and/or during):
Introduce the class to the idea of a time capsule. Discuss what kinds of items are appropriate or meaningful for this purpose. Ask them to think of an item they would like to place in such a time capsule and have them bring it (or a picture of it) to school on the day designated for the task. Pupils may present their objects and explanations to the class so that everyone knows what will be in the time capsule. You may want to actually make a time capsule with your class.

Note: It is very important to teach pupils how to use a checklist before they are given this performance task.

Suggested time allotment:
One or two lessons

Prerequisites:
• Ability to write a short passage
• Familiarity with present simple tense
