This task is a game. On the next page you will find out how to play it.
Instructions

- There are five questions on page 5. Answer them one by one. It is very important to mark the answer you choose for each question.

- Each time you answer a question, you will move your playing piece on the game board on page 6. The answers you give will determine how many spaces you move.

- When you land on a space on the game board, circle the number that appears in it. Read the instruction written in the space. Then follow the instruction by writing or drawing on the picture on page 7.

- After you have followed the instruction, go back to the questions on page 5 and answer the next question. You will move your piece a total of five times.

On the next page is an example to show you how to play the game.

Note: Read the checklist on page 9 before you begin working.

After you finish, read the checklist again and check each item.
