This is the shopping area. Here we will get hats to wear in the park.

The description that you heard is the shopping area.

Finish the example now:

Amir: Welcome to the park! My name is Amir and I will tell you about the different things we will do at the park. Let’s look at the map of the park.

Number 1 is the sports area. Here we can play basketball and other games.

Number 2 is the lake. We are going on a boat ride. The boats are big and four people can sit together.

Number 3 is where we will have lunch. It is the food area. We will have time to eat, drink and rest.

Number 4 is the water park. We can play in the pool. Don’t forget to take your towels. Please don’t bring food into this area!

Number 5 is where we can see animals. We can play with them and give them food.

Let’s start our day at the park. I hope we all have a great time.

Come on, let’s go.
The teacher calls on Tony, who is Adam’s father and he is going to tell us about his work. Welcome to our class, Tony!

Tony: Thanks. Hi everyone. I am glad to be here.

Teacher: I see you are wearing a big white hat.

Tony: Yes, that’s right! I am a chef. I am wearing a chef’s hat. I have an Italian restaurant and I do the cooking.

Teacher: That’s great! Can you tell us why you wanted to be a chef?

Tony: Well, I like to cook and I like to make people happy. Good food makes people happy.

Teacher: Yes, you’re right, good food makes me happy. When did you start to cook?

Tony: Hmm, I started to cook for my family when I was 11 years old. I tried to make different kinds of food, like soups and salads. Everybody loved what I cooked. My dad helped me a lot. He also likes to cook.
Teacher: And how did you learn to be a chef?

Tony: Well, when I was 25 years old, I went to the best cooking school in Israel. We studied from 8 in the morning until 7 in the evening.

Teacher: Wow, that's hard.

Tony: Oh yes, and sometimes I was very tired. One day, something really funny happened. The teacher asked us to make a chocolate cake. When my cake was ready, I opened the oven and I saw that my cake was white. I was so tired I forgot to put chocolate in the cake! So I needed to make a new cake.

Teacher: So do you bake cakes now?

Tony: Oh no, I don't bake. Now I make pasta, lasagna, pizza and other kinds of Italian food in my restaurant.

Teacher: That sounds delicious. Now we are all hungry.

Tony: Well, you are lucky today because I have pizza for everyone from my restaurant. I'll bring it now.

Teacher: What a surprise! Thank you so much, Tony!
