Menuha Weiss - Marmanet (coordinator)
Zofia Yoad - Ministry of Education

The NITE development team wishes to thank the members of the steering committee and the principals, teachers, and pupils who participated in the piloting of this project.

We also acknowledge the Bank of Performance Assessment Tasks for Junior High School, developed by the Center for Educational Technology in 2002. The work done on that project provided us with a framework within which to explore the unique requirements of our elementary school target population.
